Cevap: C

Your Turn! 1

Animals are our neighbours in the world. They are also the owner of everything but people don't behave them gently. They destroy their habitats. They can't find suitable places to live in. Global warming threats many animal species. Illegal hunting is also another problem for animals. Because of all these reasons, many animal species are under the risk of becoming extinct. We should protect our lovely friends and provide them suitable living areas.

Which of the following is not true according to the text above?

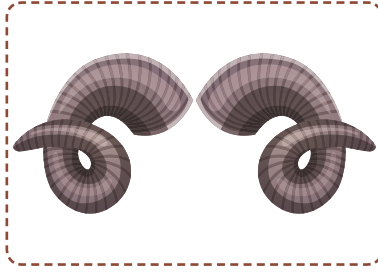

- A) We share the world with animals.
- B) Some wild animals attack people and kill them.
- C) Global warming is a serious problem for animal species.
- D) People hunt animals illegally and decrease the population of them.
